SELECTMEN'S REPORT

FELLOW CITIZENS OF HYDE PARK :

Your Board of Selectmen has completed its labors in connection with the administration of town affairs for the past year, and herewith presents for your consideration the usual annual report.

In some respects the past year has been a peculiar one in regard to public work. Anticipating as we have the advent of sewerage in our streets at an early date, the new work undertaken has been only such as would be little injured by the excavating necessary for the sewers.

It has been deemed wiser on the part of the Board to give careful attention to such parts of the work on streets as would yield the best results after the sewerage committee has finished its labors, than to expend money in large permanent improvements, except where conditions existed rendering it especially desirable or necessary.

We believe the town has reason to take pride in the possession of its splendid plant for providing road material, and no doubt very much of the material of this kind will be required in sewer construction. No better plant can be found anywhere and we are sure the investment will prove a decidedly profitable one for the town.

The Crusher was not completed ready for work until quite late in the season, but sufficient work was done with it to abundantly satisfy the Board that it was well adapted to the needs of the town, both in point of capacity and quality of material furnished. This latter is a most important consideration for without it no really good road-work can be done.

In this connection we cannot forbear to speak of one matter which has already been brought to the attention of the

town in other ways, and that is the prime importance of careful attention to newly macadamized streets.

A small amount of careful and judicious work with the proper material on the surfaces of such roadways will keep them in perfect condition, while neglect even for a few years tends to ruin and waste. Once the streets throughout the town are thoroughly and scientifically constructed on this plan, their care and maintenance in perfect condition can be accomplished with a very small yearly cost. In fact, much less than with any other form of road construction such as would be adapted to our town.

We recognize that before many years it will be desirable to pave Everett Square and the streets in the immediate vicinity where the teaming is so excessive that macadam construction is not desirable.

The Board has pursued the policy followed by the Selectmen in previous years in regard to the construction of sidewalks, and upon petition by abutters desiring the construction of concrete walks with edge stone, have constructed such walks in several parts of the town, the largest piece of work of this character being on Hyde Park Avenue, and the work in this locality has tended greatly to improve the appearance of the street which for many years has been much desired, as this Avenue is the main thoroughfare to Boston.

A portion of the sidewalk previously laid on this Avenue in the Hazelwood district has been lowered in some places to meet the new grade of the street, and we believe that this change will give universal satisfaction.

A section of sidewalk on East River Street, beginning at the corner of Walter Street, has for the past two years been a source of considerable annoyance, and this has been thoroughly remedied by the raising of the sidewalk and an adjustment of the line of the street giving a proper roadway and preventing an overflow of water upon the walk.

Another chapter on Metropolitan Avenue has been added to the history of that street and "the end is not yet." It should be remembered by the citizens that owing to the peculiar manner in which this street has been forced to the attention of the town, that no assessments for betterments can be made upon the parties receiving the most benefit. A new decree of the County Commissioners now calls for additional improvements on the street never heretofore contemplated, and we are free to say that we question the wisdom of these additional improvements upon that street at this particular time. A very large amount of money has been expended already upon that avenue, entirely out of proportion to the direct needs of the community, and in a measure to the detriment and delay of equally, if not more important, work, in some other portions of the town.

Several new streets have been added to the town during the past year and their construction accomplished in accordance with the original plans. Warren Avenue has been built in a substantial manner, the steepness of the grades rendering additional care and expense necessary to provide for surface drainage and to guard against the destruction of the street by storms and freshets, and we believe the plan of construction as recommended and carried out will prove satisfactory.

Highland Street from Metropolitan Avenue has been thoroughly constructed and we believe is in a very satisfactory condition.

Regent Street and Chesterfield Street have also been placed in as good condition as would be warranted by the small amount of money appropriated to these streets.

ACTIONS AT LAW.

Actions pending against the Town in the Superior Court, Norfolk County :

The case of Lomelia A. Bickford, Admr., against the

Town, described in the last Annual Report, is still pending.

On the 13th day of May, 1895, Richard Wood of this town brought an action returnable to the Superior Court on the first Monday of July, claiming damages in his writ in the sum of \$800 for an alleged injury sustained by him on the 22d day of January of the same year, from an alleged defect on Austin Street by the alleged accumulation of snow and ice upon the sidewalk in front of premises No. 11 and No. 13 on that street.

The action was upon the trial list at the January Sitting of the Superior Court and has been adjusted for the sum of \$180.

Elizabeth Winslow, wife of Frank L. Winslow, brought an action against the Town on the 23d day of October, 1895, returnable to the Superior Court for this County on the first Monday of December, in which she set her damages in the sum of \$2000 for alleged injuries sustained on May 20, 1895, by reason of being thrown out of her carriage on Water Street near its junction with Fairmount Avenue, in consequence, as she alleges, of the horse she was driving taking fright at the steam roller then being in use on Fairmount Avenue.

This action is dismissed by an agreement to the entry "Neither Party."

On the 9th day of September, 1895, Thomas J. Meighan, son of Thomas Meighan of this town, brought an action returnable to the Superior Court on the first Monday of November, in which he set his damages at \$5000, for an alleged injury received on the 28th day of December, 1894, in front of the store occupied by Frank L. Hodgdon on Everett Square, from an alleged defect in the condition of the sidewalk at that point, and the alleged accumulation of snow and ice thereon.

This action has been settled by the agreement to pay \$350.

FIRE DEPARTMENT.

The Fire Department in Hyde Park continues to be maintained with its usual efficiency, and we commend the report of the engineers to your careful consideration. The removal of the old lock-up from the basement of the engine house has given much needed additional room to the Department and is greatly appreciated.

The very satisfactory contract with the Water Company for fire hydrants, which your Board has had the pleasure of consummating, has greatly added to the efficiency of the Department by the increased number of hydrants. We desire to express our appreciation of the very generous and business-like way in which the Water Company have met your Board in the matter of a renewal of the contract, as well as in the carrying out of the provisions of that agreement.

Sixty-nine of the seventy new hydrants have been located and set. The Board purposely reserved one hydrant to be located in case some especially desirable point should be found to exist by the engineers, where a hydrant should be located and which possibly might have been overlooked by the Board in making their additional locations.

The payment for hydrant service seems to be appropriately provided for by the Corporation and National Bank Tax which for several years has been devoted to that purpose, and we recommend that the same appropriation be made for the ensuing year.

POLICE.

We take pleasure in calling attention to the report of the Police Department, and we believe that Mr. McKay, the efficient Chief of the Department, is entitled to the gratitude of the citizens for the very satisfactory manner in which he has administered the duties devolving upon him. No one could be more faithful in the fulfillment of his duties than Mr. McKay, and the *personnel* of the Department has felt

the influence of his direction and leadership, and we believe are in thorough accord and are doing excellent work.

The town now has a substantial and convenient building for lock-up and police headquarters which has greatly added to the dignity of the Department and to the efficiency of its work, and furthermore has removed the stigma from the town which has attached to it in former years, by reason of the inadequate accommodations in this respect.

APPROPRIATIONS.

It has been the custom for several years for the retiring Board to include in its report recommendations as to the appropriations for the following year. At present, however, in view of the uncertainty as to the action of the town in regard to sewerage, the Board does not feel justified in marking out a line of action in advance of definite knowledge, and consequently refrains from making recommendations regarding work upon the highways.

It is probable that before the annual appropriation meeting shall have been held the question of the sewerage will have been settled, and the incoming Board can then arrange its plans in regard to street work with more certainty as to its proper relation to work on the sewers.

In conclusion, we take pleasure in calling attention to the fact that the tax rate for the last year has been lower than any year since 1878, and we certainly believe that the condition of Hyde Park in regard to the various lines touched upon in this report, compares favorably with any of the surrounding towns. Very respectfully submitted,

SAMUEL T. ELLIOTT,
THOMAS S. WATERS,
GEORGE E. WHITING,
GEORGE MILES,
CHARLES LEWIS,

Selectmen of Hyde Park.

SYNOPSIS OF THE TOWN CLERK'S RECORD OF TOWN MEETINGS.

The following statement shows in a condensed form the action of the town on the various articles which have been before it for consideration the past year.

February 25, 1895. A Town Meeting was held in "Music Hall," when the following Articles were acted upon :

Article 1. To choose a moderator to preside at said meeting.

Mr. Amos H. Brainard was chosen moderator by ballot.

Art. 2. To see if the town will vote to transfer the money received or to be received from the Insurance Companies for damages to the Damon Schoolhouse by the late fire, to the School Incidental appropriation, and authorize the School Committee to repair and refurnish said schoolhouse.

It was voted to authorize the School Committee to repair and refurnish said schoolhouse, and to transfer the insurance money to School Incidentals.

Adjourned.

March 28, 1895. A Town Meeting was held in Waverly Hall, and the following Articles were acted upon :

Article 1. To choose a moderator to preside at said meeting.

James E. Cotter, Esq., was chosen.

Art. 2. To see if the town will accept the list of jurors as prepared by the Selectmen and posted according to law.
Amended and accepted.

Art. 3. To hear the report of the Selectmen in regard to guide boards, and act thereon.
Report made and accepted.

Art. 4. To see what disposition the town will make of the money received from dog licenses for the year 1894.

To the Public Library for the purchase of new books.

Art. 5. To see what compensation the town will vote to pay for collecting its taxes the current year.

Same as last year, 1 per cent.

Art. 6. To fix the salaries of the town officers for the current municipal year.

Same as last year.

Art. 7. To fix the compensation of the engineers and the several members of the fire department, for their services the current municipal year.

Same as last year.

Art. 8. To see what discount the town will vote to allow on all taxes paid on or before October 1, 1895; and what interest the town will vote to charge on taxes for the current year, when the same shall be overdue.

No discount allowed, and interest at the rate of six per cent. per year charged on overdue taxes.

Art. 9. To see if the town will appropriate one hundred and fifty dollars to Post 121, Grand Army of the Republic, for the expense of decorating the graves of deceased soldiers.

So appropriated.

Art. 10. To see if the town will appropriate the money now in the hands of the Treasurer, received by him as sidewalk, street or Board of Health assessments or betterments, and all money which shall be received by him the current year on account of such assessments or betterments, for the purpose of constructing or repairing public ways.

So appropriated.

Art. 11. To see if the town will appropriate the money to be received this year by the Town Treasurer, for or on account of Corporation and National Bank Taxes, for the

payment of the fire hydrant service of the town.

So appropriated.

Art. 12. To see if the town will authorize its Selectmen to contract in behalf of the town with the Hyde Park Water Company for additional fire hydrants.

So authorized.

Art. 13. To hear the report of the Selectmen laying out Highland St., between Milton Ave. and Metropolitan Ave., as a public town way, and to see if the town will accept and allow said laying out with the boundaries and admeasurements of said way as shown by report, plan and profile now on file in the Town Clerk's office, and appropriate money to construct the same.

Report read and accepted.

Art. 14. To see what action the town will take regarding the purchase of a new stone crushing plant, and the appropriation of money therefor.

Selectmen authorized to purchase, and \$5000 appropriated therefor.

Art. 15. To see if the town will authorize the Selectmen to purchase materials for the construction and repair of streets and sidewalks, and appropriate money therefor.

So authorized, and \$500 appropriated therefor.

Art. 16. "To hear and act on a report of the Park Commission relating to land in the vicinity of High Rock, including a portion of the Sumner farm, and to see what sum of money the town will appropriate for park purposes and to determine how the same shall be raised."

Treasurer authorized to borrow \$21,000 for Park purposes. Loan to run thirty years.

Art. 17. To see if the town will vote to build a lock-up and appropriate money therefor.

So voted, and \$1800 appropriated, and a three years loan authorized therefor.

Art. 18. "To see if the town will vote to purchase land and erect a schoolhouse in the Readville district at or near

the Camp Ground, so called, and appropriate money therefor."

See Article 22.

Art. 19. To see what amount the town will vote to raise by taxation, to meet the expenses of the town the current year, the deficiencies of last year, and the notes and bonds of the town maturing the present year, and how the same shall be appropriated.

Voted to raise by taxation the present year one hundred and fourteen thousand, eight hundred and fifty-nine and 1-100 dollars, and to appropriate the same as follows:—

Support of Schools:—

Teachers, Janitors and Fuel	\$32,500 00	
Incidentals	3,200 00	
Text Books and Supplies	2,000 00	
Evening Schools	700 00	
Industrial School	100 00	
Repairs on Grew School	1,000 00	
	<hr/>	\$39,500 00
For Bonds and Notes		7,000 00
“ Interest		2,000 00
“ Public Library		1,850 00
“ Highways—Current Expenses (\$1,000 of which to be used for watering streets)		7,000 00
“ Highways—Permanent Improvements		6,000 00
“ Warren, Hyde Park and Central Park Avenues		5,000 00
“ Stone Crusher Plant		1,000 00
“ Board of Health,		2,500 00
“ Incidentals		7,100 00
“ Salaries		3,475 00
“ Police		6,500 00
“ Support of Poor		3,000 00
For Street Lights		8,000 00
“ Fire Department		6,500 00
“ Grand Army, Post 121		150 00
“ Fairview Cemetery		2,000 00
“ Highland Street		1,270 00
“ Material for Streets		500 00
Voted in 1894 and payable in 1895		4,514 01
		<hr/>
		\$114,859 01

Art. 20. To hear the report of the Committee appointed Nov. 28, 1894, to consider the subject of a "water supply" for the town, to act thereon, and to take such further action in said premises as the town may deem proper.

Report made and placed on file. Selectmen instructed to call meeting for vote upon question of purchase, and petition General Court for further legislation in the premises.

Art. 21. "To see if the town will vote to elect at its annual meeting in 1896 three Park Commissioners, one for one year, one for two years, and one for three years, and will vote to elect thereafter at each annual meeting one Park Commissioner for the term of three years."

So voted.

Art. 22. "To see what action the town will take to provide additional accommodations for the public schools."

Articles 18 and 22 referred to Messrs. Charles G. Chick, Andrew Washburn, Joshua F. Lewis, James R. Corthell and Stephen B. Balkam, as a Committee, to consider and report to the town.

Art. 23. To see what action the town will take regarding a system of sewerage for this town.

Messrs. Robert Bleakie, Charles F. Light, Francis W. Darling, Percy M. Blake and James D. McAvoy, were appointed a committee with full powers to employ assistance and expend money in considering this subject, and to report, in print, to the town, with such suggestions as they deem proper for the best interests of the town.

Art. 24. "To see if the town will authorize the Selectmen to obtain plans and estimates of the cost of constructing a public way from the eastern end of Damon Street to Central Park Avenue."

So authorized. Also instructed to consider the whole subject of a crossing anywhere between the Hyde Park and Readville Stations.

Art. 25. To see if the town will, by vote, change the name of the public way now known as Central Park Avenue to Hyde Park Avenue; and also change the name of that portion of the public way now known as Hyde Park Avenue which lies between River Street and Central Park Avenue.

The name of Central Park Avenue changed to Hyde Park Avenue; the naming of that part of Hyde Park Avenue described in the last

clause of this article referred to the Selectmen with full powers, after hearing the residents on said avenue, to name it.

Art. 26. To see if the town will authorize its Collector of Taxes to use all means of collecting the taxes which a Town Treasurer, when appointed a collector, may use.

So authorized.

Art. 27. To see what amount the town will authorize its Treasurer to borrow, in anticipation of the tax to be levied the current year.

Authorized to borrow \$80,000.

Art. 28. To see if the town will authorize its Treasurer, with the approval of the Selectmen, to borrow money to renew or replace any loan or loans.

So authorized.

April 22, 1895. A Town Meeting was held in Waverly Hall, when the following Articles were acted upon, viz:—

Article 1. To choose a moderator to preside at said meeting.

Mr. Frank B. Rich was chosen by ballot.

Art. 2. To see if the town will vote to purchase the franchise, corporate property, and all the rights and privileges of the Hyde Park Water Company, in accordance with the provisions of Chapter ninety-one (91) of the Acts and Resolves passed by the General Court of Massachusetts in the year 1884.

The vote on this question to be by ballot “yes” or “no” in answer to the following question:— “Shall the Town of Hyde Park purchase the franchise, corporate property, and all the rights and privileges of the Hyde Park Water Company, in accordance with the provisions of Chapter ninety-one of the Acts and Resolves passed by the General Court of Massachusetts in the year 1884.”

In accordance with a vote of the town at its last meeting,

the polls must be "kept open at least five hours, a part of which time shall be in the evening."

The polls were opened at 3.05 P. M. and closed at 8.30 P. M. The State ballot box and the voting list were used; 435 ballots were cast, of which 246 were in the affirmative and 189 in the negative. Not the necessary two-thirds.

Art. 3. In case the town, under Article 2, by a two-thirds vote, assents to said purchase, then to see if the town will appoint a committee to confer with the Hyde Park Water Company for the purpose of ascertaining a price which may be mutually agreed upon between said corporation and this town for the purchase aforesaid, this committee to report their findings to the town at a future meeting.

Adjourned without taking up Article 3.

June 26, 1895. A Town Meeting was held in Waverly Hall, and the following Articles were acted upon, viz.:—

Article 1. To choose a moderator to preside at said meeting.

James E. Cotter, Esq., was chosen by ballot.

Art. 2. To hear the report of the Selectmen laying out Pleasant Street, between Beacon Street and Vose Avenue, as a public town way, and to see if the town will accept and allow said laying out with the boundaries and admeasurements of said way as shown by report, plan and profile now on file in the Town Clerk's office, and appropriate money to construct the same.

Accepted and allowed, and \$950 appropriated therefor.

Art. 3. To see if the town will make an additional appropriation for the purpose of building and furnishing a lock-up, and to see how said money shall be raised.

\$1,800 appropriated therefor, to be raised by taxation next year, and treasurer authorized to borrow said sum.

Art. 4. "To hear the report of the committee appointed March 28 last, to consider the matters of erecting a school

building on the 'camp ground,' so called, and for providing additional school accommodations and to act thereon."

Report made, amended, and accepted in part.

Art. 5. "To see what sum the town will vote to raise for the purchase of lands for school purposes and for the erection of new school buildings, and how the same shall be raised and expended."

The sum of \$16,000 was appropriated for the purchase of lands and the erection of three small schoolhouses, and Messrs. Richard M. Johnson, Frederick N. Tirrell, Isaac Bullard, Thomas S. Waters and Charles Haley were appointed a committee to carry this vote into effect. The treasurer was authorized to borrow said sum, to be paid in eight equal annual payments of \$2,000 each.

Art. 6. To see if the town will vote to accept the provisions of Chapter 433 of the Acts and Resolves of the General Court of the present year.

This is an act which will legalize the vote of this town passed March 28, 1895, purporting to authorize the town treasurer to borrow \$21,000 for purposes of a park in the vicinity of "high rock," PROVIDED the town votes by a majority vote, at THIS MEETING to ACCEPT the provisions of said act. If the town AT THIS MEETING REFUSES to ACCEPT said act, then said vote of the town passed last March remains unaffected by said act.

A ballot was had under this Article and the check list used. There were 147 votes for acceptance, and 231 votes against acceptance. Not accepted.

Art. 7. To see if the town will authorize and empower its Selectmen to contract in its behalf with the Hyde Park Water Company, for a supply of water for fire purposes, the term of such contract to begin at the expiration of the term of the town's present contract with said Company.

The Selectmen were authorized to so contract for at least 175 hydrants, for the sum of not more than \$5,500 per year, for the term of ten years beginning Oct. 1, 1895.

Art. 8. To hear the report of the Selectmen as to plans and estimates of the cost of constructing a public way from the "eastern end of Damon Street to Central Park Avenue;" also as to the feasibility of a crossing at or near Glenwood Avenue, and at any point "between the Hyde Park and Readville stations." Also to take any action in said premises and to appropriate money for constructing any such crossing.

The Selectmen made a report and illustrated it by views shown upon a screen by means of a lantern. The meeting thanked the Selectmen for their "able and instructive" presentation of the report and gave them further time to make a final report.

Adjourned.

Dec. 10, 1895. A Town Meeting was held in Waverly Hall, and the following Articles were acted upon, viz. :—

Article 1. To choose a moderator to preside at said meeting.

Charles F. Light, Esq., chosen by ballot.

Art. 2. "To see if the town will vote to amend its By-Laws by striking out Art. 1 of the provisions thereof relating to Truants."

Voted to so amend.

Art. 3. "To see if the town will vote to readopt Arts. 2 to 7 inclusive of its By-Laws relating to Truants, and to designate said articles when readopted consecutively from 1 to 6 inclusive."

Said articles were readopted and renumbered.

Art. 4. To see if the town will authorize its Selectmen to contract in behalf of the town with the Hyde Park Water Company for additional fire hydrants.

Authorized to so contract for three hydrants at \$25 each per year.

Art. 5. To see how much money the town will raise and appropriate for expenses of its Committee on Sewerage.

\$1,000 appropriated; to be raised by taxation next year.

Art. 6. "To see what sum the town will appropriate for School Incidentals and how the same shall be raised.

\$1,100 appropriated; to be raised by taxation next year.

Art. 7. "To see if the town will appropriate \$1,400 for Salaries, Janitors and Fuel, in its school department and how same shall be raised."

\$1,400 appropriated; to be raised by taxation next year.

Art. 8. To see if the town will raise and appropriate three thousand dollars to finish its school houses now in process of construction.

\$3,000 appropriated; to be raised by taxation next year.

Art. 9. To see if the town will raise and appropriate an additional sum of money for Incidentals.

\$800 appropriated; to be raised by taxation next year.

Art. 10. To see if the town will raise and appropriate an additional sum of money for the Highways Department.

\$2,000 appropriated, and to be transferred from money now in the treasury received as "fines in criminal cases."

Art. 11. To see if the town will make an additional appropriation for the purpose of finishing the Lock-up, and to see how said money shall be raised.

\$500 appropriated, and to be transferred from money now in the treasury received as "fines in criminal cases."

Art. 12. To hear the second report of the Selectmen as to plans and estimates of the cost of constructing a public way from the "eastern end of Damon Street to Central Park Avenue," also as to the feasibility of a crossing at or near Glenwood Avenue, and at any point "between the Hyde Park and Readville stations." Also to take any action in said premises and to appropriate money for constructing any such crossing.

Report made by Mr. Samnel T. Elliott. Several plans of crossings, surroundings, etc., shown on a screen by the use of a lantern. Without other action this article was indefinitely postponed.

Adjourned at 8.45 P. M.

TOWN CLERK'S REPORT.

BIRTHS.

Number of births registered in Hyde Park in 1895	301
Males	140
Females	161

The parentage of the children is as follows:

Scarlet fever	2	Old age	5
Whooping cough . . .	2	Bright's disease	4
		Inanition	3
		Convulsions	6
		Various other diseases . .	37

The following are the names of those who died in Hyde Park and of residents of Hyde Park who died elsewhere, during the year 1895.

DATE.	NAMES.	AGES.			CAUSE OF DEATH.
		Y.	M.	D.	
Jan. 2	James V. Poor.....	91	7	16	Paralysis.
2	— Gerrish.....	—	—	—	Stillborn.
6	Annie E. Sullivan.....	—	5	—	Convulsions.
8	Lottie M. Aixon.....	16	4	6	Phthisis pulmonalis.
8	John S. Perry.....	—	—	24	Cerebral meningitis.
14	Patrick Farrington.....	70	—	—	Railroad accident.
14	— Estabrook.....	—	—	—	Stillborn.
17	Hugo E. E. Roman.....	1	6	11	Croupus diphtheria.
18	Louisa McMahon.....	—	—	8	Convulsions.
19	Alois Hurley.....	1	2	—	Whooping cough.
19	Josephine Hagenburg.....	29	—	—	Pulmonary tuberculosis.
19	Fred L. Littlefield.....	20	—	27	Phthisis.
22	Lilly B. Broadbridge.....	30	9	8	Peritonitis.
25	Catherine Lucey.....	—	1	7	Whooping cough.
27	Lydia E. Anderson.....	65	—	—	Cancer of liver.
31	— Welch.....	—	—	—	Stillborn.
31	Jeannette R. Mills.....	64	11	19	Carcinoma uteri.
31	Mary Magee.....	38	3	—	Cancer of stomach and liver.
Feb. 1	Emma R. Homans.....	43	1	8	Peritonitis.
3	Joseph Healey.....	—	—	16h	Exhaustion.
3	Theodore D. Weld.....	91	2	11	Old age.
5	Abner Davis.....	88	5	15	Influenza.
6	Helen B. Crocker.....	23	4	—	Malignant disease of bowels.
7	Harriet C. Kimball.....	66	1	17	Apoplexy.
8	Samuel S. Jefferts.....	63	2	24	"
10	Etta L. Russell.....	—	5	12	Convulsions.
10	Francis Fox.....	42	—	—	Pneumonia.
10	Alice E. Rooney.....	19	1	1	Phthisis pulmonalis.
13	Elizabeth Willett.....	84	8	22	Endocarditis.
15	Jeremiah Kelleher.....	60	—	—	Pneumonia.
15	Prudence W. Russell.....	80	—	7	Old age.
15	Stephen Hall.....	69	2	21	Cancer of stomach.
16	Catherine Coughlin.....	70	10	—	Chronic bronchitis.
17	Sarah Dutton.....	85	11	16	"
18	Edward Corcoran.....	40	—	—	Chronic intestinal nephritis.
18	Francis A. Gallagher.....	—	1	—	Congestion of lungs.
21	Robert R. Lord.....	—	5	4	Capillary bronchitis.
26	Edward J. Bowen.....	—	11	—	Cerebro spinal meningitis.
26	William W. Steven.....	48	7	12	Pul. tuberculosis.
26	Herman H. Wells.....	31	3	18	La Grippe.
28	Patrick Welch.....	45	—	—	Asphyxia.
Mar. 1	Nancy Pattee.....	83	8	3	Old age.
1	Louis G. Nelson.....	1	4	19	La Grippe.
2	Alice Brown.....	—	15	—	Peritonitis.
2	Bridget Kingston.....	56	—	—	General debility.
4	— McFec.....	—	—	—	Stillborn.
9	Sarah McFee.....	34	—	—	Peritonitis.
9	Rebecca Crumpler.....	64	1	1	Fibroid tumor.
9	Johanna Burns.....	26	—	—	Shock.
15	Mary Estabrook.....	—	2	1	Pneumonia.
15	John F. Saunders.....	49	6	4	Found dead in bed.
18	Ann Leonard.....	65	—	—	Pneumonia.
20	Wales R. Stockbridge.....	74	—	2	Concussion of spine.
21	Annie Collins.....	1	3	—	Acute phthisis.
23	John H. Ward.....	6	6	26	Pneumonia.
24	Hannah H. McCarthy.....	47	—	—	La Grippe.
25	Hannora Foley.....	60	—	—	Pneumonia.
26	George Pierce.....	76	1	13	Paralysis of heart.
28	Helen L. Weston.....	—	11	28	Meningitis.

The Town Clerk requests information of any omission or error in the above tables, in order that the registration may be as complete as possible.

Respectfully submitted,

HENRY B. TERRY,

Town Clerk.

THIRD ANNUAL REPORT OF THE PARK COMMISSIONERS.

1. From the remarks and speeches made at various times during the year, we infer that many citizens are in favor of small local parks. If any land is secured for such purposes at low rates, it will be necessary, when opportunity offers, to act promptly. With this in view, we recommend the appropriation of \$2,000 in 1896 for park purposes.

2. Your Commissioners deem it for the best interests of the town to have one Commissioner elected each year for a three years' term, instead of three Commissioners for a one year term. Therefore we requested that a proper article be inserted in the town warrant. And we prepared, and the Secretary offered under this article, the following motion :

Moved, that the town at its annual election in 1896, elect three Park Commissioners, one for one year, one for two years, and one for three years; and that thereafter at each annual election the town elect one Commissioner for the term of three years.

This motion was adopted. We are of the opinion that this change in the term of office will tend to a conservative and continuous policy, which is much better than an uncertain and shifting one.

3. A proposition was presented to the Legislature of 1895 to allow the Metropolitan Commissioners to abandon, reconvey or sell at public auction or otherwise, any park land, by consent of the Governor and Council. From our experience and observation, believing that local boards were, as a rule, better acquainted with the exact lines and boundaries of parks in their locality, than any Metropolitan

Commission, and could therefore prevent undesirable changes in lines being made to suit the ends of owners on the borders of parks, we drafted and proposed an amendment that such abandonment or resale should be done "with the concurrence of the majority of the Board of Park Commissioners, if any, of the city or town in which the property is situated." This amendment was offered by our Representative in the House, and was adopted and is now a part of the law.

4. Your Commission, in the performance of its duties, requested the Selectmen to insert the following article in the warrant for the town meeting to be held March 28, 1895 :

"To hear and act on a report of the Park Commissioners relating to land in the vicinity of High Rock, including a portion of the Sumner farm, and to see what sum of money the town will appropriate for park purposes, and to determine how the same shall be raised."

At that meeting the following report was read by the Secretary and later placed on file with the town records :

TO THE CITIZENS OF HYDE PARK :—Your Park Commissioners deem it wise to ask you to appropriate twenty-one thousand dollars to purchase about thirty acres of the Sumner estate, including High Rock, and also a piece of land adjoining, which belongs to the Real Estate & Building Company. The agents of the Sumner estate offer the thirty acres at seventeen thousand dollars, and the Real Estate & Building Company offer the additional land at one cent per foot. In 1894 the thirty acres was assessed with other lands in the same estate at five hundred dollars per acre, making a gross sum of fifteen thousand dollars for the Park which we propose to take. The land belonging to the Real Estate & Building Company is divided into lots, but we think the average assessment would be in excess of the price for which the Company offers to sell it to the town.

The proposed park contains an excellent athletic field and play ground, a fine natural spring of water, many places suitable for picnics or, in summer, to rest in the cool shade, and presents many beautiful views. We recommend that the money be raised by the issuing of bonds or notes of the town, payable in thirty equal annual instalments. In our opinion to purchase at the price stated will prove a good investment from every standpoint.

It was then moved that the Treasurer be authorized to borrow \$21,000 to be used for purchasing land in the vicinity of High Rock for Park purposes, and for improvements thereon, and to give the notes or bonds of the town therefor; said sum to be paid in thirty equal annual instalments, the first payment to become due in 1896.

This was adopted by a vote of 394 in the affirmative and 14 in the negative.

The town treasurer, in the usual way, solicited proposals for the bonds thus authorized, and the lowest bid was accepted. Some questioned the legality of the vote while others maintained that it was valid, and the money loaner requested that its legality be put beyond question by an act of the Legislature. Certain citizens appeared before the Committee of the Legislature and opposed the enabling act; some on the ground that this small sum ought to be raised in ten years instead of thirty, and others that we did not need the park, or that it was useless or expensive. The Legislature passed the following act:

CHAP. 433. AN ACT TO AUTHORIZE THE TOWN OF HYDE PARK TO INCUR
INDEBTEDNESS FOR PARK PURPOSES.

Be it enacted, etc., as follows:

Section 1. The town of Hyde Park for the purpose of purchasing land in the vicinity of High Rock for park purposes and for improvements thereon, may borrow twenty-one thousand dollars, and may issue bonds therefor payable in thirty equal annual instalments, the first instalment to become due upon the first day of May in the year

eighteen hundred and ninety-six. The bonds shall be dated the first day of May in the year eighteen hundred and ninety-five, shall bear interest at the rate of four per cent. per annum, payable semi-annually on the first days of November and May of each year, and shall be in demoninations of five hundred and one hundred dollars each, but the provisions of chapter twenty-nine of the Public Statutes and acts in amendment thereof shall otherwise apply to such indebtedness.

Section 2. The vote of the town of Hyde Park passed on the twenty-eighth day of March in the year eighteen hundred and ninety-five, authorizing the treasurer of said town to borrow twenty-one thousand dollars for the park purposes named in section one of this act is hereby confirmed and declared legal and valid.

Section 3. This act shall take effect upon its acceptance by a majority vote of the voters of said town present and voting thereon at a legal town meeting called for the purpose within one year from its passage.

Approved May 20, 1895.

On June 26, 1895, a town meeting was held, article 6 reading as follows :

“To see if the town will vote to accept the provisions of Chapter 433 of the Acts and Resolves of the General Court of the present year. This is an act which will legalize the vote of this town, passed March 28, 1895, purporting to authorize the town Treasurer to borrow \$21,000 for purposes of a park in the vicinity of “High Rock” provided the town votes by a majority vote at this meeting to accept the provisions of said act. If the town at this meeting refuses to accept said act, then said vote of the town passed last March remains unaffected by said act.”

The vote was taken by a “yes and no ballot,” 147 voting in the affirmative and 231 in the negative.

According to the opinion of able lawyers, this does not prevent the present Commissioners or their successors from making a contract with the land owners to purchase the land, and then compel payment through the courts. It also permits the Treasurer to borrow the money at any rate of interest of any one who will accept the loan without any enabling act. Or if brought before the town in due form, this act may be voted on at any time or many times between

now and May 9, 1896. Your present Board, regardless of their own opinion, refused to take any further action in the premises, believing that majorities rule, that it was fair to interpret this vote of June 26th as an instruction not to buy, and that the citizens should be the final judges of what they want. It is, however, an undesirable situation, and we recommend that an article be inserted in the next town warrant, under which the town can either accept the enabling act before quoted, or can rescind the vote passed the 28th day of March, 1895, so that the matter can be finally disposed of by the town.

5. As many changes must necessarily occur in the Readville District in the near future, it would seem advisable from the economical standpoint that the Park-way proposed between Stony Brook and Blue Hill Reservations be laid out and built next year. But this is beyond the jurisdiction of this Board. It could, however, be brought before the Legislature, on petition, if a sufficient number of citizens are interested.

The Metropolitan Board at present have no money with which to construct ways, and as some of the towns are urging their claims with much force and pertinacity, it is quite probable they will throw the burden of obtaining an appropriation from the Legislature, for any specific park way, upon the advocates of the measure. One town, at its own expense, is obtaining releases and terms of sale from all land owners, to ascertain the probable cost of the proposed way. If there is a predominant sentiment in Hyde Park in favor of this improvement, some method of expressing it might lead to good results. In order to have a fair chance for success, any attempt in this direction must receive the hearty co-operation of our citizens. The advantages of a Boulevard connecting these two reservations, can hardly be overestimated from any standpoint. Yet it costs our town

no more to have this road built than it does to have the same sum expended by the Metropolitan Commission, in any other town in the Metropolitan District. We pay our proportion the same as for Metropolitan Parks.

With these suggestions we leave the matter to the good common sense of our citizens.

JOHN J. ENNEKING,
WILBUR H. POWERS, Secretary,
LAWSON B. BIDWELL,
Park Commissioners
for the Town of Hyde Park.

CEMETERY COMMISSIONERS' REPORT.

The Cemetery Commissioners submit their fourth annual report for the financial year ending Jan. 31, 1896. They have received \$6,553.89, as follows :

Sale of lots,	\$2,680 00
Single graves,	235 00
Interment and receiving tomb charges,	466 00
Foundation for monuments,	181 14
Sale of wood,	32 50
Balance from last year,	959 25
	<hr/>
Total,	\$4,553 89
Appropriation,	2,000 00
	<hr/>
	\$6,553 89
Expense, labor, etc.,	\$2,640 03
Paid Town Treasurer for lots,	2,680 00
Single graves,	235 00
Paid for land,	175 00
	<hr/>
	\$5,730 03
	<hr/>
Balance on hand,	\$823 86

For statement of receipts and expenditures see financial statement accompanying this report.

During the past year the Commissioners have extended Fairview, Magnolia, Poplar, and Aspen Avenues, and Hazel path. They have laid out and graded lots in several different parts of the cemetery ; also graded a large section for single graves. They have laid 1,000 feet of drain pipe, which will drain a large proportion of the cemetery.

The Commissioners intend to erect sign-boards with the names of the avenues or paths in the parts of the cemetery which are completed, and they expect also, early next spring, to lay water pipes in different sections of the cemetery.

An appropriation of \$500 by the town is recommended by the Commissioners, this being fifteen hundred dollars less than last year.

STATISTICS.

	1892.	1893.	1894.	1895.	Total.

GEORGE M. RICE,
 GEORGE E. WHITING,
 CHARLES F. JENNEY,
 Commissioners.

POLICE REPORT.

TO THE HONORABLE BOARD OF SELECTMEN :

Gentlemen—I respectfully submit herewith the annual report of this department for the year ending Jan. 31, 1896.

Number of persons arrested,	250
Males,	233
Females,	17

CAUSES FOR ARREST.

Drunkenness (simple),	162
Drunkenness (common),	3
Disturbing the peace,	14
Assault and battery,	12
Vagrancy,	5
Breaking and entering,	4
Larceny,	7
Larceny from a building,	1
Cruelty to animals,	3
Assault with intent to kill,	2
Assault on an officer,	1
Assault with intent to maim,	2
Forgery,	1
Embezzlement,	1
Liquor nuisance,	4
Illegal keeping of liquor,	3
Illegal sale of liquor,	1
Indecent exposure,	1
Violation of Metropolitan Park Laws,	3
Converting mortgaged property,	1
Concealing mortgaged property,	1
Selling mortgaged property,	1
Stealing fruit,	2
Keeping unlicensed dog,	1
Common railer and brawler,	1
Profanity,	1
Insane,	9
Other offences,	3

MISCELLANEOUS.

Travellers lodged in station house over night,	2980
Cases investigated without arrest,	227
Stores found open at night,	16
Search warrants for intoxicating liquor,	11
Lost children restored to parents,	3
Amount of fines imposed by Court,	\$1,869.00
Number of persons fined,	167
Imprisonment imposed by Court,	6 years 2 months.
Stolen property recovered, value,	\$471.00

FINAL DISPOSITION OF CASES.

Committed to House of Correction,	84
Committed to Insane Asylum,	9
Turned over to State Board of Lunacy and Charity,	1
Turned over to parents,	1
Turned over to other officers,	4
Let off on probation,	25
Let off on payment of fine,	111
Discharged,	10
Cases on file,	2
Awaiting trial,	3
	— 250

Since the last annual report the department has moved into the new quarters provided by the town, which are a decided improvement over the old ones. The cell room is well lighted, warm and dry, and prisoners are now separated from the travellers who apply nightly for lodgings, and we are enabled to keep the lock-up in a clean and healthy condition. The office and officers' quarters are ample and commodious. Complaints have frequently reached us for better protection in the Clarendon Hills district. Although the force has been increased during the year the appropriation made would not admit of a regular patrolman in that vicinity, and I trust this may be remedied the coming year. A night patrol was placed on the old Camp Ground and vicinity early in the spring, owing to the large floating population employed on the new mile track, most of whom

came from other States and who camp upon the grounds. A night man has been placed on Fairmount and vicinity. Readville and Hyde Park Avenue above the woollen mill have also been provided for. Several special officers have been assigned to duty on Sundays and holidays.

Few crimes of a serious nature have been committed during the year as will be seen from the report herewith. A large number of complaints have been investigated without arrest, many of them outside our jurisdiction, but to which we gave our attention for the peaceful interests of all concerned.

The Street Railway has added largely to the duties of the department. The vicinity of Hyde Park Avenue and West River Street has, on pleasant evenings and Sundays required the attention of an officer constantly, owing to the large number of people who congregate there to take passage in the cars. It is anticipated that travel will materially increase the coming year owing to the extension of the tracks to Milton Lower Mills, and to the completion of the new mile track at Readville early in the season. Although the larger part of the new mile track will be located in Dedham, entrance to the same will be through our town, and during the occupancy of the grounds for trotting purposes a police force will necessarily be required there, as the people who visit the place will come largely from surrounding towns and cities. Race track gatherings usually draw an element from near-by cities whose presence is not desirable, and who live largely at the expense of others.

During the financial year ending January 31, 1896, 2,980 travellers were cared for, against 3,411 in the year ending January 31, 1895, and 4,731 in the year ending January 31, 1894.

I would recommend that the force be increased at least one man during the coming year.

In conclusion, I respectfully tender my thanks to the public and to the Board of Selectmen for their cordial support during the year, trusting that the department has been conducted in a satisfactory manner with the force at my disposal.

JAMES McKAY,
Chief of Police and Keeper of Lock-up.

REPORT OF THE BOARD OF HEALTH.

TO THE CITIZENS OF HYDE PARK:

The Board of Health herewith submits its annual report.

The work of this year has been in about the same line as years before. Complaints of different kinds, care in regard to the spread of contagious diseases, and carrying out the laws in relation to plumbing contracts.

Most of the complaints to the Board have proved on investigation to be well founded. A few did not come under the jurisdiction of the Board. About one hundred and fifty complaints have been received in relation to overflowing cesspools, vaults in bad condition, wet land, filthy houses and yards, dead animals, and swine kept without permits.

In order that the work of the Board might be carried on to better advantage, and those having business to bring before the Board could receive proper attention, the Secretary was instructed to be at the Board of Health rooms one hour each day to receive all communications and to attend to any matters which might come up for action, and we have found that this has been a great help in the management of the work of the Board.

SANITARY.

We consider the sanitary condition of our town in most parts, fair. We hope the town will adopt the report of the committee appointed by the town to look into the matter of a system of sewerage, and begin at once to construct such system, and thus put us in condition to guard against contagious and malarial diseases, the occurrence of which we believe to be favored by our present system of drainage. Privy vaults continue to be an intolerable nuisance and are,

in a measure, responsible for sickness which might otherwise be avoided. The change in the system of clearing vaults and cesspools is perfectly satisfactory to the Board, and we believe to most of the citizens. The cost of the work is more than it should be, but on account of the distance to the place used for dumping we have been unable to change this up to the present time. The Board will be only too willing to make any changes which will lessen the cost to individuals having this work done. We invite the most thorough and careful investigation into this matter, and are confident that the citizens will find that the Board are doing all in their power to make this service acceptable to them.

CONTAGIOUS DISEASES.

There has been quite an increase in the cases of contagious diseases, although in some respects we have fared better than some of the towns about us. The increase in cases of measles has given a large total for this year. We find that in cities and towns where a hospital is provided that patients receive in most cases better care, the contagion is less liable to spread, and deaths are less frequent. We hope the time will come when we can have this help in our work.

The following is the report of cases for this year :

Diphtheria,	22	cases	with	6	deaths.
Scarlet Fever,	35	"	"	2	"
Measles,	99	"	"	0	"
Typhoid Fever,	16	"	"	1	"
Membranous Croup,	1	"	"	1	"
Total,	173	"	"	10	"

COLLECTING OFFAL.

The contract for collecting offal for the year was given to the lowest bidder, Mr. E. M. Cundall, he giving Mrs. Hukin the right to collect on the route covered by her teams for several years. Owing to the change in collector, to whom the work was new, and also to an increase in the

number of places, a great many have not received the attention they should ; but we trust that by another year, whoever does the work, this will not occur again.

SWINE.

The complaints are coming in more and more each year in regard to keeping swine in the thickly settled portions of the town. No one is allowed to keep swine without a permit, and all permits which are granted with the provision that if complaint is made they will be cancelled. Orders have been given to several parties to dispose of swine kept without permit, and such orders have been complied with.

PLUMBING.

In this branch of our work there is much to do each year. On the 1st of May, C. T. Lovell resigned as Inspector, he being unable to attend to the work on account of other duties. J. C. Savage was appointed to take his place. This made a vacancy in the office of Assistant Inspector and S. G. Gifford was appointed Assistant. The work has, in most cases, been done in a satisfactory manner, and we believe that the town will be greatly benefitted by the enforcement of the plumbing laws.

The Board of Examiners have examined two candidates as master plumbers, and one as journeyman, and licenses were granted in all cases.

The Inspector, in his report to the Board, calls attention to the fact that under the new laws work which has in a great many cases been hardly up to the standard, is now done as required. The number of jobs inspected was about one hundred and thirty. There were forty-two cases where rules were not complied with, which were attended to when attention was called to them. A few cases where notices were sent old work was inspected and the result made known to the Board.

We agree with our Inspector in the statement that our plumbing is equal, as regards sanitary requirements, with any of our sister towns or cities.

REGULATIONS OF THE BOARD OF HEALTH OF THE TOWN OF HYDE PARK.

PUBLIC STATUTES: CHAPTER 80, SECTION 18.—The Board of Health of a town shall make such regulations as it judges necessary for the public health and safety, respecting nuisances, sources of filth, and causes of sickness within its town. Whoever violates any such regulation shall forfeit a sum not exceeding one hundred dollars.

In accordance with the foregoing provision of law, this Board makes the following regulations, which will be strictly enforced.

REGULATION 1. *Privy Vaults and Drains.* Section 1. Every tenement shall be provided with a water-tight underground drain to carry off the waste waters, also with a suitable privy or water-closet sufficient for the accommodation of all those inhabiting the premises.

Section II. All privy vaults, unless water-tight, shall be so constructed that the inside of the same shall be at least five feet distant from the line of any adjoining lot or street, and at least twenty feet from any dwelling house, and shall be provided with a ventilation through the roof. The same shall not be used as cesspools nor receive drainage from the premises. Their contents shall not be allowed to leak out or otherwise become offensive. All privy vaults shall be of a size sufficient to satisfy the Board of Health.

Section III. All waste water shall be conveyed through sufficient drains under ground to a cesspool sunk under ground, which shall be of sufficient size to contain at least eighty cubic feet, and when not water-tight must be at least twenty feet from the cellar wall of any tenement or dwelling, and at least five feet distant from any adjoining lot or street. Cesspools shall be built in a thorough and substantial manner, as shall be approved by the Board of Health.

Section IV. No person shall allow any drain or the overflow of any cesspool to enter any running stream, or any drain constructed for surface water, and no person shall suffer any house drainage or other offensive water to remain in any cellar, or upon any lot or vacant ground by such person owned or occupied. All privy vaults and cesspools within one hundred and fifty feet of any well or spring, the water of which is used for domestic purposes, must be water-tight.

Section V. All privy vaults or cesspools must be thoroughly cleansed at least once in each year, and oftener if necessary for the public health, the expense to be borne by the owner of the property.

REGULATION 2. Section 1. The Board, when satisfied upon due examination that a cellar, room, tenement or building in the town occupied as a dwelling place, has become by reason of the number of occupants, want of cleanliness or other cause, unfit for such purpose, and a cause of nuisance or sickness to the occupants or to the public, may issue a notice in writing to such occupants, requiring the premises to be put in proper condition; or if the Board see fit they may require the premises to be vacated, and the same shall not be again occupied without the written permission of the Board.

Section II. No person shall throw or put into any public place or pond, or running stream or body of water, or in any other place where the Board of Health may deem it a nuisance, any dead animal, animal matter, decayed fruit or vegetables, dirt or rubbish whatever; nor shall any person throw into or upon any flats within the jurisdiction of the town, any dead animals, filth or offensive matter.

REGULATION 3. *Swill and Offal.* Section 1. No person shall remove or carry in or through any of the streets, lanes or avenues, places or alleys within the town of Hyde Park, the contents of any cesspool, vault or privy well, swill or house offal (either animal or vegetable), or grease or bones, unless a permit be granted by the Board of Health upon such terms and conditions as said Board may deem necessary.

Section II. No person shall bury swill or house offal, or the contents of any cesspool, vaults, privy or privy well within the limits of the town of Hyde Park unless a permit be granted by the Board of Health.

Section III. Parties will be licensed by the Board of Health to collect swill and refuse matter from houses in Hyde Park twice a week or oftener, and all housekeepers and others are directed to deliver the same to those duly authorized to make such collections.

REGULATION 4. *Diseased Meat and Provisions.* Section 1. No person shall bring into the town, keep or offer for sale any diseased, putrid, stale or unwholesome meat, vegetables or provisions.

REGULATION 5. *Swine.* Section 1. No person will be permitted to keep any swine within the limits of the town of Hyde Park, without a written permit from the Board of Health.

REGULATION 6. *Contagious Diseases.* Section 1. Any person sick with the small pox or other contagious disease, together with all persons in attendance upon them, and the premises where such

sick person is, will be subject to the control of the Board, and no person shall enter or leave a house wherein a person is or has been sick with the disease, or in any way come in contact with the inmates of such house except by permission of the Board.

Section II. Whenever the Board of Health shall ascertain that any person is sick with small pox, scarlet fever, diphtheria, or any other disease dangerous to the public health, the Board shall at their discretion, have full control of said person or premises, and shall, if they deem proper, order the premises vacated.

Section III. All persons are warned not to approach a house or the surrounding premises whereupon is displayed a disease flag by day or a red light at night.

Section IV. The bodies of all persons dying of small pox, scarlet fever, typhus fever or diphtheria must be immediately disinfected and placed in a tight coffin, which shall not be reopened, and the bed, bed clothing, and other clothing used by any such person, and by those in attendance on him, and all the furnishings of the sick room, thoroughly disinfected before being taken from said room. In the above case no public funeral will be allowed without permission from the Board of Health.

Section V. The owner, or person having charge of any vehicle, public or private, used at a funeral in the foregoing cases, to carry the deceased, or any of the family or attendants of the deceased, shall forthwith report the fact to the Board of Health, and shall thoroughly disinfect such vehicle before the same is again used, and take such precaution as the Board of Health shall direct.

Section VI. Any person in the town of Hyde Park who knows or suspects any domestic animal has contagious disease, (such as glanders in horses or cholera in swine), must immediately report the same to the Board of Health. The penalty for neglect to do so is fine or imprisonment. The above is in accordance with the provisions of Chapter 252 of the Acts of 1887.

REGULATION 7. Section 1. All complaints in relation to nuisances and sources of filth injurious to the public health and safety, must be made in writing to the Board of Health, with a description of said nuisance and of the premises on which it exists, with the owner's name, if known to the complainant. Such complaints must bear the signature of the complainant. Whenever such complaint shall be made as aforesaid, the Board of Health shall proceed to examine the premises complained of, and will take measures to abate the nuisance, if such is found to exist.

REGULATION 8. Section 1. No person, firm or corporation not

now engaged in or working at the business of plumbing shall hereafter engage in or work at said business in the town of Hyde Park, either as a master or employing plumber or as a journeyman plumber, unless such person, firm or corporation first receives a license therefor, in accordance with the provisions of Chapter 477 of the Acts of the year 1893 of the Commonwealth of Massachusetts and Acts amendatory thereof, or supplementary thereto.

Section II. Any person desiring to engage in or work at the business of plumbing, either as a master or employing plumber, or as a journeyman plumber, shall apply to the Board of Health and shall at such time and place as may be designated by the board of examiners appointed by the Board of Health, as provided for in said Acts, to whom such application shall be referred, be examined as to his qualifications for such business. In the case of a firm or corporation the examination and licensing of any one member of the firm, or the manager of the corporation shall satisfy the requirements of this regulation.

Section III. The board of examiners shall examine said applicants as to their practical knowledge of plumbing, house drainage and plumbing ventilation, and if satisfied of the competency of the applicant, shall so certify to the Board of Health.

Said board will thereupon issue a license to such applicant authorizing him to engage in or work at the business of plumbing. The fee for a license for a master or employing plumber shall be two dollars; for a journeyman plumber it shall be fifty cents. Said licenses shall be issued annually, expiring on the thirty-first day of May next ensuing, and shall be conditional on skillful work, and a strict observance of the rules governing plumbing.

Section IV. No person shall carry on the business of plumbing unless he shall have first registered his name and place of business in the office of the Board of Health; and notice of any change in the place of business of a registered plumber shall be immediately given to said Board.

Section V. No person shall proceed to construct, add to, or alter any portion of the drainage system (except to repair leaks) of any building in the town of Hyde Park, until plans showing in detail the whole drainage system shall have been filed at the office of the Board of Health, upon blanks in such form as the Board may determine; no person shall commence work on such drainage system until the plans are accepted by the inspector of plumbing and a permit of approval granted. Plans and specifications shall be approved or rejected within five days of the time of the filing.

Rules and regulations for material, construction, etc., may be found in town by-laws.

Fully believing that a large proportion of contagious diseases originate from unsanitary conditions, we trust that we shall have the aid of all citizens and property owners in carrying out the above regulations, which are based on statute laws, and the sanitary rules of our large towns.

For burial permits apply to F. C. Graham, 10 Harvard avenue.

FINANCIAL STATEMENT.

To Appropriation,	\$2,500 00	
Balance from last year,	420 66	
	<hr/>	\$2,920 66
Paid E. M. Cundall, collecting offal	\$776 25

Again we are able to report all bills paid and a good balance in the treasury. We have tried in every way to keep pace with the times in learning what other boards are doing and the best methods in use for the prevention of disease.

The Board is connected with the Mass. Association of Boards of Health, and every effort will be made to keep the town in the front rank in regard to sanitary improvement.

Respectfully submitted,

ALVIN D. HOLMES, M. D.,

JOHN C. LINCOLN, M. D.,

EDWIN C. FARWELL,

Board of Health of the Town of Hyde Park, Mass.

REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY.

When the last annual report was written the Trustees hoped that some decided progress would before this time have been made toward the erection of a new building for the use of the library. Though nothing material has yet been done, they note with pleasure that the attention of the public has been aroused and that many of our most active and influential citizens are agitating the subject. Through the liberality of a public-spirited lady the Readville district is soon to have a suitable building, and it is to be regretted that the rest of the town should be obliged to submit to such inferior accommodations.

Those who have long been residents of the town have watched with pride and satisfaction the increasing excellence and beauty of its dwellings, but they notice with regret no corresponding improvement in its public buildings. A good book deserves a good binding, and a well-bound book deserves to be kept amid suitable surroundings. Is it too too much for you to ask that when you go from your attractive homes after books, (or send your children for them) that you may find an equally attractive place in which to consult them? The neighboring towns find that money judiciously expended for good buildings is money well invested, since it calls to their borders a desirable class of residents who are able and willing to assist in bearing its burdens. Should we find money thus expended a less profitable investment than they have found it?

Your Trustees confidently look forward to a time in the not distant future when the Library shall be not merely a

place where our citizens may get books and hasten away, but a place so attractive that they may remain there with pleasure to become familiar with its treasures of literature and science. It ought also to be a source whence they may draw not only books but information about books; where both young and old may receive suggestions to direct their reading wisely. Thus it may both directly and indirectly raise the standard of literary taste in the whole community.

The Trustees have under consideration plans for making the library more helpful to the public schools. These plans they hope to be able to put into active operation during the coming year.

A new catalogue is much needed, but it has been deemed unwise to incur so great an expense, since the radical re-arrangement of books which a change of quarters would make necessary would render such a catalogue useless. Something, however, has been done to supplement the existing catalogue by bulletins posted in the reading-room and by lists printed in the local papers.

The circulation has been practically the same as last year, the number of books taken for home use having been 33,578, while 2,951 magazines and 1,351 books have been taken out for use in the reading room.

There have been added to the library 612 volumes.

The following donations have been received :

United States Government	10 volumes
Commonwealth of Massachusetts	15 volumes
Mr. A. E. Giles	10 volumes
Mr. F. A. Wyman	1 volume
Mr. F. W. Darling	1 volume
Mr. T. F. Burns	1 volume
Mass. Department G. A. R.	1 volume
Smithsonian Institute	2 volumes

There have also been received from various sources 18 pamphlets.

REPORT OF THE OVERSEERS OF THE POOR.

The Board of Overseers of the Poor herewith present their twenty-eighth annual report for the year ending January 31, 1896. Although the total number of persons aided during the year shows a marked decrease compared with the previous year, this fact is due to the falling off in the number of tramps lodged, while the number receiving full support and temporary aid has increased. Careful investigation has shown that intemperance was the cause in a large proportion of the new cases. In a few instances the applicants have been deserving and their condition could not be attributed to causes other than sickness or lack of employment. It is not to be understood that all persons applying will receive relief. A just discrimination will be exercised, and temporary relief granted only to deserving persons after such inquiry and investigation as the circumstances of each case will admit.

Number of persons aided,	3097
“ “ “ fully supported,	14
“ “ “ partially “	103

REPORT OF THE BOARD OF ENGINEERS.

TO THE BOARD OF SELECTMEN :

We herewith respectfully present our report of the Fire Department for the year ending January 31, 1896.

The Central Fire Station, which for many years, has had very little expended upon it, has been thoroughly repaired and painted and a Magee combination heater put in. The hose house at Readville has been further improved and at present is quite a model house. The entire Department has been equipped with the latest and most improved harness hangers. Five hundred feet of new hose has been added.

For the better care of wet hose the hose tower on the Central Station has been improved and a special heater connected for use on frozen hose.

That part of the Central Station formerly occupied by the Police Department, recently vacated, supplies a long-felt want. It should now be improved for fire department uses. One thousand feet of new hose should be added.

It is an established fact that the Department is composed of capable and active men. All its members try to do their duty. They respond promptly to alarms and get to the fire as quickly as possible under some difficulties. Much better time could be made if there were two pairs of horses and two permanent men in the Central Station, and in our opinion it is time such addition was made to the department facilities. If such a condition can be reached, the entire department need not respond on first alarms; having horses in readiness, they can hitch and wait 20 minutes, and if not called, retire.

Your attention is called to the fact that the town is growing in all directions, and East River Street represents a large amount of property, taking in Holmfield and a part of Rugby. In case of an alarm from that district it is a long run. At present we depend upon horses from an outside stable. Very often the horses we get are just put up after a long drive or a hard day's work, and it is not to be expected that they can take the apparatus to a fire as quickly as a good fresh pair waiting in the Station for just such work.

Fortunately our town has not been visited by serious fires during the past year. It is well, however, to bear in mind that the business blocks in our midst are the kind of material for a large conflagration.

AUDITORS' REPORT.

In compliance with the By-laws of the town the undersigned have examined the accounts of the Selectmen, School Committee, Collector of Taxes, Town Treasurer, Commissioners of Sinking Fund, Trustees of the Public Library, Overseers of the Poor, and Board of Health, and hereby certify that the same are correct, and all payments accompanied by proper vouchers.

WALLACE D. LOVELL,
ASA J. ADAMS,

Auditors.

BY-LAWS.

NOTIFICATION OF TOWN MEETING.

Every town meeting shall be notified by posting copies of the warrant calling the same, in ten public places in the town, seven days, at least, before the day appointed for said meeting.

ANNUAL TOWN MEETINGS.

The annual town meeting for the election of town officers shall be held on the first Monday of March of each year. The meeting shall be opened at seven o'clock A. M., and the polls shall be kept open until sunset.

A town meeting shall also be held annually between the first Monday of March and the first Monday of April, for appropriating such sums of money as may be necessary for town purposes, and for transacting such other business as may legally be brought before said meeting.

RULES FOR THE GOVERNMENT OF TOWN MEETINGS.

1.—All questions submitted for the consideration of the town, involving the expenditure of money, shall be in writing, when so required by any legal voter.

2.—No vote fixing the period for closing a ballot shall be reconsidered after such ballot shall have commenced; but it may be in order to extend the period without such reconsideration.

3.—When a question is under debate, motions shall be received to adjourn, to lay on the table, the previous question, to postpone to a certain time, to postpone indefinitely, to commit, or to amend; which several motions shall have precedence in the order in which they are herein arranged.

4.—The powers and duties of the presiding officer, not especially provided for by law, or by the foregoing rules, shall be determined by the rules of practice contained in "Cushing's Manual," so far as they are adapted to the condition and powers of the town.

5.—No vote shall be reconsidered except upon a motion made within one hour after such vote has passed, unless such reconsideration is ordered by a vote of two-thirds of the voters present and voting

FINANCIAL YEAR.

The financial year of the town shall begin with the first day of February in each year, and end on the thirty-first day of the following January.

The selectmen, overseers of the poor, board of health, surveyors of highways, and school committee shall post in some conspicuous place at their official rooms, a notice of the times of their respective meetings.

COLLECTION OF TAXES.

1.—The assessment of taxes shall be completed, and a list of the same delivered to the collector, on or before the first day of August of each year.

2.—All taxes which may be assessed, if paid on or before the first day of October next after the assessment, shall be entitled to such discount as the town shall vote at its annual meeting. All taxes shall be due and payable on or before the first day of November next following the assessment of said taxes.

3.—On the first secular day of each month, the collector shall pay over to the town treasurer all the taxes collected by him; and he shall, on or before the first day of February in each year, make up his account and render the same to the auditors.

DUTIES OF THE AUDITORS.

1.—The auditors shall examine the accounts of the selectmen, school committee, treasurer, collector, trustees of the public library, and all other officers or committees entrusted with the expenditure of money, quarterly, and shall certify as to the correctness of the same in the printed annual report.

2.—Before certifying to the accounts of the treasurer, they shall examine his cash-book, wherein shall be entered his receipts and payments, as they occur from day to day, shall see that he has paid out no moneys except on proper vouchers, carefully examine all payments for interest, and see that the funds on hand are intact.

3.—Before certifying to the collector's accounts, they shall examine his cash-book, showing the amounts collected from day to day, and showing when the same were paid over to the treasurer; shall see that he has collected interest on all taxes overdue, and shall see a complete list of abatements, and also a list of unpaid taxes.

4.—They shall see that the accounts of the trustees of the public library are kept in a correct manner, and that all payments are accompanied with proper vouchers.

COASTING.

Coasting on any of the public streets of the town is prohibited, except upon such streets as the selectmen may designate each year by public notice.

HIGHWAY AND POLICE REGULATIONS.

1.—No building shall be removed over a public street without the written permission of the selectmen.

2.—The owner of such building, or the person or persons removing the same, shall give a bond in such penal sum, and with such sureties as the selectmen shall determine, with condition to reimburse the town for all sums of money which it may be liable or compelled to pay in consequence of such use of the highways.

3.—No person except the selectmen or the surveyors of highways, in the lawful performance of their duties, or those acting under their orders, shall break or dig up the ground in any street or public way in the town, without first obtaining a written permit from the selectmen; and all persons acting under such permit shall put up and maintain a suitable railing or fence around the part of the street so broken up, so long as the same shall remain unsafe or inconvenient for travellers, and he or they shall keep one or more lighted lanterns fixed to such railing or fence, or in some other way exposed every night from twilight in the evening through the whole night, so long as such street or way shall be or remain unsafe or inconvenient for travellers.

4.—No person shall ride or drive a horse in any street in the town at a rate faster than eight miles an hour.

5.—No person shall, without the written consent of the selectmen, play at any game in which a ball of any kind is used, or fly a kite, or throw or shoot stones, arrows, balls, snow-balls, or other missiles, or discharge any gun, cannon, or firearm, or make any bonfire or other fires in any street or way where the public have a right to pass.

6.—No person shall propel, drive, wheel or draw any bicycle, tricycle, cart or vehicle of any kind whatsoever except a child's carriage drawn by hand, nor use roller skates upon or over any sidewalk in this town, nor permit nor suffer any horse, cattle, swine or sheep, belonging to him or under his care or keeping, to go upon or over the same, nor suffer any horse to remain hitched across, or upon, or otherwise obstruct or injure, any such sidewalk.

7.—No person shall hitch or fasten any horse to any ornamental tree, standing or growing on or near any sidewalk, or to the boxing or guard about said tree, without the consent of the owner thereof.

8.—No person shall without a written license from the selectmen place or cause to be placed, or suffer to remain within the limits of a street or upon any sidewalk, so as in any manner to obstruct the travel thereon, any vehicle, wood, coal, manure, dirt, gravel, stones, building material, barrels, boxes, merchandise, or any rubbish or obstruction whatever.

9.—No person shall carry in a public street, house-offal, either animal or vegetable, or grease, or bones, or the contents of cesspools or vaults, unless he has been expressly licensed therefor by the Board of Health, upon such terms and conditions as said board may deem that the health and interests of the town require.

10.—Loud crying of wares or merchandise, or hallooing, hooting or making loud and unseemly noises on the public streets or squares of the town, to the annoyance of the citizens, is prohibited.

11.—No person shall behave in a rude, indecent or disorderly manner, or use profane, indecent, or insulting language, in any public place, or on any sidewalk or street in the town, to the annoyance or disturbance of any other person there being or passing in a peaceable manner, or be or remain upon any sidewalk, street, or crossing, or about doorways or places of business, to the annoyance or disturbance of any person.

12.—Three or more persons shall not continue to stand or remain in a group or near to each other, on any sidewalk or street or crossing, or in any public place, in such a manner as to obstruct a free passage for foot passengers, after having been requested by a constable or police officer to move on.

13.—No person shall be or remain in any doorway, or upon any stairs, doorstep, portico or other projection from any house or building, or upon any wall or fence on or near any street or public place, after having been requested by the owner or any occupant of the premises or by any constable or police officer to remove therefrom.

14.—No person shall make any indecent figures, or write, print, paint, or cut any obscene word or words upon, or deface, break or injure in any manner, any fence, post, sign, street lantern, building or structure; or commit a nuisance upon any sidewalk or other place resorted to by the public, or against any tree, building or structure adjoining a sidewalk.

15.—No person shall extinguish any street light, or extinguish or remove any light placed to denote an obstruction or a defect in any street or way, without proper authority.

16.—No person shall swim or bathe in any of the waters within the limits of this town, so as to be exposed in a nude state, to the view of any person passing or being upon any railroad or street or in any dwelling-house in this town.

17.—No person shall intermeddle with any hydrant, gate, gate-box or water pipe placed or located within the limits of any public way in this town, without permission from the Selectmen or the Hyde Park Water Company.

PASTURAGE OF CATTLE OR OTHER ANIMALS ON STREETS OR WAYS.

No person shall pasture any cattle, goat or other animal upon any street or public way in said town, either with or without a keeper, except within the limits of such way adjoining his own premises, and field drivers are instructed to enforce this by-law.

LIST OF TAX-PAYERS.

The names of all persons paying a tax on real or personal property shall be published annually in the town reports, together with the amount of tax assessed upon each, and whether the same is paid or unpaid.

DUTIES OF TOWN CLERK.

The Town Clerk shall keep a file of all town reports, reports of all committees chosen by the town, and all original documents relating to the affairs of the town which may come into his possession; he shall, as soon as practicable after any election has been held by the town, in addition to the notices he is now directed to give to officers who are required to take an oath of office, also issue a written or printed notice to all persons who have been elected to any other office, or chosen to serve on any other committee, stating the office to which such person has been elected, or the duties which such committee was chosen to perform.

CONTRACTS MADE IN BEHALF OF THE TOWN.

Every contract exceeding one thousand dollars shall be accompanied by a suitable bond for the performance of the same, or by the deposit of money or security to the amount of such bond.

ACTIONS AT LAW.

The Selectmen shall have full authority, as agents of the town, to employ counsel to institute and prosecute suits in the name of the town, and appear for and defend suits brought against it, unless otherwise specially ordered by a vote of the town.

CONVEYANCING.

Whenever it shall be necessary to execute any deed conveying land, or any other instrument required to carry into effect any vote of the town, the same shall be executed by the selectmen, or a majority of them, in behalf of the town, unless the town shall otherwise vote in any special case.

BY-LAWS IN RELATION TO THE PREVENTION OF FIRES.

1.—It shall be the duty of every person who shall commence the erection of any building within the town of Hyde Park to notify the Board of Engineers thereof before he shall commence building the chimneys therein.

2.—All chimneys in wooden buildings shall be built of brick, stone, or other fire-proof non-conducting material. All brick flues shall be smoothly plastered *inside* with mortar from top to bottom or lined with earthen pipe, and shall be plastered *outside below the roofing*.

3.—In no case shall chimneys rest upon any flooring without a footing of masonry or iron supported by iron beams, having a secure bearing of masonry or iron at either end.

4.—All flues shall be topped out at least four feet above the roof of the building to which they belong. The brick topping out of chimneys shall not have more than two inches projection unless covered by a cap of metal or stone properly secured.

5.—Hearths of fireplaces or grates shall be laid upon brick or other trimmer arches, or upon bars of iron supporting a bed of brick-work.

6.—No wood-work of any kind shall be placed at a less distance than one inch from the outside brick-work of any flue. In no case shall a nail be driven into the masonry of any flue.

7.—No wood-work shall be placed at a less distance than one inch from any tin or other metal flue or flues, pipe or pipes, used or intended to be used to convey heated air or steam in any building, unless such flues or pipes shall be cased with metal, leaving a free circulation of air all around the same.

8.—No smoke pipe in any such wooden or frame building shall hereafter enter any flue unless the said pipe shall be at least twelve inches from either the floors or ceiling; and in all cases where smoke pipes pass through stud or wooden partitions of any kind, whether the same be plastered or not, they shall be guarded by either a

double collar of metal, with at least four inches of air space and holes for ventilation or by a soap-stone ring, not less than three inches in thickness and extending through the partition.

9.—The Board of Engineers shall examine into all shops and other places where shavings or other combustible material may be deposited or collected, and at all times be vigilant in the removal of the same, whenever, in the opinion of a majority of them, the same may be dangerous to the security of the town from fires; and direct the owner, tenant, or occupant of said shops, or other places, to remove the same; and in case such owner, tenant or occupant, refuses or neglects so to do, shall cause the same to be removed at the expense of such owner, tenant or occupant.

10.—It shall also be the duty of said engineers to take cognizance of all buildings in the town in which any steam engine shall be used, and of all buildings in town in process of erection or alteration, and to make a record of such buildings as in their judgment may from any cause be dangerous, and report the same to the selectmen forthwith. And whenever in the opinion of the majority of the Board of Engineers, any chimney, hearth, oven, stove, stovepipe, fire-frame or other fixtures, or any camphine or other explosive or inflammable fluid or material, or whatever else may give just cause for alarm, should be altered, repaired or removed, they, the said engineers, shall forthwith notify and direct the owner, tenant, or occupant of the premises upon which the same are situated, to alter, repair or remove the same, as the said engineers shall direct. And in case such tenant, owner or occupant shall refuse or neglect so to do, the said engineers shall cause the same to be removed, altered or repaired at the expense of such owner, tenant or occupant. And any person who shall obstruct the engineers, or any of them, in carrying out the provisions of this section, shall be liable to the penalty hereinafter stated.

11.—The removal, extension or essential alteration of any building; also the rebuilding or repairing of any building which has been partially destroyed by fire, shall be subject to the same restrictions as are imposed by the foregoing By-laws on the erection of buildings.

PUBLICATION OF BY-LAWS.

The Selectmen shall publish these By-laws annually in connection with the town report.

PENALTIES UNDER THE BY-LAWS.

Every violation of any of the foregoing By-laws shall be punished by a fine of not less than one dollar nor more than twenty dollars, to be recovered by complaint before any trial justice in the County of Norfolk, or any other court having jurisdiction.

PROSECUTION UNDER THE BY-LAWS.

Any citizen may, and the selectmen, constables, and police officers shall, prosecute every violation of the foregoing By-laws, by complaint before any trial justice in the County of Norfolk, or any other court having jurisdiction.

LIMITATION OF ACTIONS.

No person shall be prosecuted or tried for any breach of the provisions of any By-laws of this town, unless the complaint for the same shall be instituted and commenced within six months from the time of committing such breach.

All By-laws or parts of By-laws of this town heretofore existing are hereby repealed, and these By-laws of the town of Hyde Park shall go into effect from and after their adoption by the town and their approval by the Superior Court or any Justice thereof.

Commonwealth of Massachusetts. Norfolk, SS.

HYDE PARK, November 17, 1886.

At a meeting of the legal voters of said town of Hyde Park, held in Everett Hall, on Wednesday, the seventeenth day of November, in the year of our Lord eighteen hundred and eighty-six, the foregoing By-laws were adopted by said town.

Attest:

HENRY B. TERRY, *Town Clerk.*

Commonwealth of Massachusetts. Norfolk, SS.

SUPERIOR COURT, December Sitting, 1886, to wit: January 26, 1887.

The foregoing By-laws are hereby approved.

By the Court.

ERASTUS WORTHINGTON, *Clerk.*

True copies Attest:

ERASTUS WORTHINGTON, *Clerk*

TRUANTS.

The following by-laws relating to TRUANTS were adopted by this town December 10, 1895, and approved by the Superior Court for our County of Norfolk January 7, 1896, namely :

1.—All children convicted of habitual truancy hereunder, and children between the ages of seven and fifteen years, residing in said town, and who may be found wandering about the streets or public places of said town, having no lawful occupation or business, not attending school, and growing up in ignorance, may be committed to the Lawrence Industrial School, at Lawrence, Mass., or to any place provided by this town within its limits, for confinement, instruction and discipline.

2.—Two or more truant officers shall be appointed annually, whose duty it shall be to inquire into all the violations of the truant laws, and of the law relating to compulsory education, and to do all the acts required of them by the laws of the Commonwealth.

3.—It shall be the duty of every truant officer, previous to making any complaint under these laws, to notify the truant or absentee from school, also his parent or guardian, of the offence committed, and of the penalty therefor, and if the truant officer can obtain satisfactory pledges for the restraint and reformation of the child, he may, at his discretion, forbear to prosecute so long as such pledges are faithfully kept.

4.—It shall be the duty of the School Committee, the teachers of the public schools, and the citizens generally, to aid the truant officers as far as possible in the discharge of their duties.

5.—It shall be the duty of the truant officers to keep a full record of all their official acts, and make an annual report thereof to the School Committee, who shall publish the same with their own report.

6.—Nothing in these by-laws shall be so construed as to alter or impair the obligation and duty of teachers to enforce punctuality and regularity of attendance, and to preserve good order and discipline.

Attest:

HENRY B. TERRY, Town Clerk.

BY-LAWS.

Prescribing Rules and Regulations for the materials, construction, alteration and inspection of all pipes, tanks, faucets, valves and other fixtures, by and through which waste water or sewage is used and carried, in any building within the limits of the town of Hyde Park, Massachusetts, prepared in accordance with the provisions of Chapter 477 of the Acts of the year 1893, and Chapter 455 of the Acts of the year 1894 of the Commonwealth of Massachusetts.

SECTION 1. The plumbing of every building shall be separately and independently connected with a proper cesspool.

SECTION 2. Pipes and other fixtures shall not be covered or concealed from view until approved by the inspector of plumbing appointed by the Board of Health, who shall examine same within two working days after notice that they are ready for inspection.

SECTION 3. Plumbing work shall not be used unless the same has first been tested in the presence of the inspector with the water test, or if that is not practical, with the peppermint or other reliable test, and approved by him in writing. All soil and drain pipes must be in position before the test is made, otherwise the work will not be approved. The practicability of any test will in all cases be decided by the inspector.

SECTION 4. Drain and connecting ventilating pipes shall be of sufficient size and made of cast iron within the building, and for a distance of at least ten feet outside, except that lead pipes may be used for short connections exposed to view. Such pipes shall be of uniform thickness throughout, and shall have an average weight not less than below specified, viz:—

2 inch pipe	5 1-2 lb. per ft.
3 inch pipe	9 1-2 lb. per ft.
4 inch pipe	13 lb. per ft.
5 inch pipe	17 lb. per ft.
6 inch pipe	20 lb. per ft.

Drain pipes shall be properly secured by iron to the walls, laid in

trenches to uniform grade, or suspended to floor timbers by strong iron hangers. Every drain pipe shall be supplied with a suitable trap with brass cleanout screw and connected with Y branch; also provided with brass cleanout between all fixtures, connections, etc., and cesspool or vaults, and inside as near to cellar wall as practicable where it leaves the building, and shall have a proper fall. Changes in direction shall be made with curved pipes, and all connections with horizontal or vertical pipes shall be made with Y branches. All drain pipes shall be exposed to sight where practicable within the building, and shall not be exposed to pressure where they pass through walls, and in no case to be carried in plastered partitions unless provided with removable covers on wall. Every part of every drain pipe below a cellar floor shall be laid in a brick trench with a concrete base and shall be accessible through sufficiently unattached covers.

SECTION 5. Whenever rain water conductors are connected with any pipe of the drainage system of the house, that portion within the house or underground shall be of cast iron pipe with lead joints, and in all cases provided with an extra deep trap where it enters house drain. No rain water conductor shall be used as a soil pipe.

SECTION 6. Iron pipes used in plumbing shall, before being put in place, be first tested by the water or kerosene test, and then coated inside and outside with coal tar pitch applied hot, or with paint or with some equivalent substance. Joints shall be run full with molten lead, and thoroughly calked and made tight. Connections of lead pipes with iron pipes shall be made with brass ferrules properly soldered and calked to the iron. Every joint in earthen pipe shall be made in hydraulic cement, care being taken that the inside and outside of the joints and of the pipe is properly cleaned out before connection is made with the house. Every joint in lead pipe shall be made of solder, and wiped joints are to be used where practicable. No paint or putty is to be used on joints until they have been tested.

SECTION 7. The waste pipe of each and every sink, basin, bath tub, water closet, slop hopper and of each set of trays or other fixtures shall be furnished with a separate trap, except that one five inch trap may be used for a bath tub and a bowl, or for a sink and set of wash trays, provided the length of waste pipe from the fixtures does not exceed three feet. Traps will be placed as close to the fixtures as practicable, and shall be protected from siphonage or air pressure by special cast iron air pipes of a size not less than the waste pipes they serve, placed outside or below the trap as near the crown of the trap as practicable. No trap vents shall be connected with earthen

ware. Lead air pipes may be used where they are exposed to view. All round traps must have cleancut screws below the water line.

Air pipes for water closet traps shall be of two inch bore if thirty feet or less in length, and of three inch bore if more than thirty feet in length. Air pipes shall be run as direct as practicable. Two or more air pipes may be connected together or with a drain pipe, but in every case of connection with a drain pipe, such connection shall be above the upper fixture of the building.

SECTION 8. Drip or overflow pipes from safes under water closets and other fixtures or from tanks or cisterns, shall be run to some place in open sight and in no case shall any such pipe be connected directly with a drain pipe.

No waste pipe from a refrigerator or other receptacle in which provisions are stored shall be connected with a drain pipe or other waste pipe.

SECTION 9. Every water closet, or line of water closets, on the same floor, shall be supplied with water from a tank or cistern, and shall have a flushing pipe of not less than one inch in diameter; but this requirement shall not apply to water closets substituted for vaults where the same are located outside of the building proper, and such water closets may be arranged so as to receive their supply directly from the main with proper fixtures approved by the inspector, the water company and the Board of Health. No fixture, as a slop hopper, etc., shall be set up unless it is provided with proper means for flushing.

SECTION 10. No steam exhaust shall be connected with any soil or waste pipe.

SECTION 11. Water pipes from traps shall equal or exceed in area of cross section the sum of areas of pipe entering sewer from fixtures, as inspector shall direct.

The foregoing by-laws relating to plumbing were adopted by the town, Nov. 28, 1894, and were approved by the Superior Court for the County of Norfolk. Jan. 22, 1895.

Attest :

HENRY B. TERRY, Town Clerk.

REPORT OF THE SCHOOL COMMITTEE.

TO THE CITIZENS OF HYDE PARK :

Another year has been added to the history of our Public Schools, and the committee having their interests in immediate charge take pleasure in calling attention to their present condition and in making such suggestions as may aid in the proper understanding of their needs and work.

We believe the past year to have been one of good faithful work in the public schools, and consequently attended with good results to the children of the town.

While some of our neighboring cities and towns have been compelled to close many of their schools by reason of contagious diseases Hyde Park has escaped such a misfortune. We have endeavored to protect the children and schools against such an evil by carefully guarding the sanitary condition of the rooms and buildings used by the pupils. Germicides and disinfectants have been freely used in the belief that the expense involved was of small importance as compared with the health of the children.

Those having the control of the public schools who forget or neglect to care for the health of the children but poorly perform the duties assigned them.

What does it avail that the pupil has a fine mental training if his physical condition is so broken that he cannot bear the strain consequent upon a practical application of his intellect to the pursuit of some useful vocation.

Better far preserve good sound bodies that a vigorous use may be made of all acquired knowledge. The State wants for citizens men capable of work, not merely intellects without bodily health or strength.

The competent teacher carefully watches the physical wants and comforts of his pupils. Especially so in the early years of the school course. A teacher who does not do this and is careless about matters affecting the health of the children but poorly performs his duty, even though rapid advancement may have been obtained in scholarship.

We have endeavored to have teachers employed who would fully appreciate this duty, and this committee has tried at all times to see that the children had proper care and attention.

It is often said that more subjects ought to be taught, or that special training should be introduced and the course enriched in many ways.

The town has for many years been careful in all of its departments to incur only such expense as seemed necessary, and to avoid any increase of its tax rate for purposes where the need was not apparent.

This department has been in accord with this public desire, and its policy in the past has been conservative.

It is an easy matter to increase the expenditures for public education in ways that have not seemed advisable while citizens were paying large sums of money towards our debt and interest account.

The town has now reached the proportions of a city and its debts are substantially paid. Under these conditions the tax payers may feel it no hardship to increase the pay of our teachers and employ some for special and industrial work. The fact cannot be denied that the demand for trained teachers has greatly increased, and if we are to retain such we must increase the schedule of salaries. Again, with the opening of the schools in the three new buildings the question of proper supervision presses for attention.

While our pupils were accommodated in the large buildings, each having a master, we have felt that by employing masters' assistants good supervision could be obtained from

our masters; but with the scattering of small schools in various parts of the town our condition approaches that of other towns where a superintendent has been found necessary. This question must soon be practically considered and settled. Should the town decide to employ a superintendent, policy would demand that a man of high standing and acknowledged merit be secured. If special supervision is to be had it should be of the best quality.

A few suggestions may not be out of place as to the work of our course.

It hardly seems to us expedient to add more to its requirements as now arranged. The eight years consumed in the grammar and primary schools are hardly sufficient to drill the pupils in the branches required by law. Indeed it seems that in many, if not most, cases the work of the grades is in advance of the mental development of the pupil. Matters that require reason have to be taught before that quality is developed in the children. Much better results would be obtained if the course could be taken by maturer minds.

As has been said in past reports of this committee the time of the grammar course should be extended if more is to be required from it. It is better to master the few essentials than obtain only confused and superficial ideas of many things.

The lesson of thoroughness itself should be well taught in the schools that are to prepare citizens for a proper performance of their duty. If children are compelled to take a course of public instruction under conditions where from the very nature and amount of work required thoroughness cannot be had and instructors are forced to be content with the superficial from want of time and ability of pupils to comprehend, is there not a danger that we are fostering an evil from which the children and community must hereafter suffer? It would seem to be unwise to add more to our course without adding to its length in years.

It would be far wiser to reduce the number of branches, if possible, so that complete mastery might be obtained of those that were retained.

Most cities and large towns have a course of nine years, and it would seem that Hyde Park might well consider whether it would not materially improve her school system to add another year to her grammar school course.

The reports of the various local committees having charge of the respective schools are submitted herewith. A careful examination of them will afford information of their work and present condition.

SCHOOL ORGANIZATION AND STATISTICS.

HIGH SCHOOL.

Mr. Jere M. Hill, Master; Mr. Emerson Rice, Sub-Master; Mr. E. Q. S. Osgood, Mr. Arthur W. Lowe, Miss Anna W. Edwards, Miss Anna M. Linscott, Mrs. Mary C. Howard, Miss Alice G. Beede, Assistants.

Graduates—Four years' course, Lucy Mary Adams, Mabel Gertrude Andrews, Harold Osgood Ayer, Helen Balkam, James Leonard Barney, Alice Henrietta Bidwell, Adah Issabelle Childs, Edward Francis Crowley, Henry M. JANITORS.

Last year the Legislature passed an Act requiring persons having charge of steam boilers to obtain a license from the State Police, such license to be issued upon examination. This new departure by the State placed the janitors of our school buildings at disadvantage, as none held such a license. They at once made application for a license, but as yet no time has been accorded them by the examiners in which to meet the test. These janitors we have had in charge of the various steam plants since their installation in the various buildings. They have each and all been faithful and careful in their management, and we are confident of their practical

merits to occupy the positions which they hold, whether they can succeed in satisfying the technical demands of a written examination remains to be seen. In the case of Mr. Wheeler at the Damon School, who was employed before the steam was introduced, the local committee believing him to be a faithful and worthy man for the place allowed him to take instructions in the care of the boiler and pipes, and when pronounced competent by his instructor and a local expert he was placed in charge and special efforts made to have him examined by the State. Like many another who has attempted the examinations submitted in such cases he failed to obtain his license and left the position. In view of the fact that the janitors have to remain in their respective buildings at all times during school sessions when heat is used, and during severe winter weather the care of the pipes keep them in the buildings all night the board in April voted to increase their pay from \$36 per month for 10 months to \$45 per month for 12 months. This to include all extra work and the cleaning of the rooms during the summer vacation. The pay at the Damon School is somewhat less because of the smaller number of rooms in use. This increase caused in a great measure the call for an additional appropriation in December.

ACCOMMODATIONS.

In keeping with the suggestions made last year by this committee the matter of additional accommodations was brought before the citizens in March, and a committee was appointed to examine the matter and report back to the town. A report was made in June, and \$16,000 was appropriated for three small buildings, and the whole matter was placed in the hands of a building committee. At this date these buildings are still in the course of construction. How far they will meet the requirements of the schools we are unable to say.

MUSIC.

Miss Elizabeth M. Dodge has been continued in charge of the musical instruction of the course, and we believe her efforts have given entire satisfaction.

TEXT BOOKS.

During the summer the Board voted to substitute Potter's Geography for Warren's, and in December Montgomery's United States History was substituted for Barnes's in the VII. grades.

DEPARTMENTAL WORK.

At the beginning of the school year the local committee at the Grew School was authorized to introduce this system in the V., VI. and VII. grades as an experiment. It has since that time been upon trial under most favorable conditions. The report of the local committee contains further information in this particular.

TRUANCY.

It was discovered early in the year that by reason of a change made in the truancy laws of the State our own provisions had become inoperative. New provisions were brought before the town and adopted, and the same have been approved by the Court. We are now able to enforce the attendance of delinquents, which aids the teachers and work of the schools very materially.

In conclusion we would impress the thought that the public school is at the foundation of good citizenship, and good citizenship is necessary for the proper conduct of business affairs and public concerns.

It is therefore of first importance that the work of the children in our schools should be such and only such as will tend to make good citizens, strong in body and mind, honest in purpose, self-reliant in action, sober and industrious, to the end that a love for our Constitution may be fostered, our free institutions perpetuated and the cause of civilization ad-

vanced by those whose education we have been called upon to furnish and superintend.

We wish to acknowledge the courtesy shown to us by the citizens during the past year, and to express our appreciation therefor, and to further acknowledge the faithfulness and loyalty of our teachers. In view of these conditions the duties assigned us have been harmoniously performed, and we hope in a manner that will be found creditable when time shall have fully demonstrated the results.

Respectfully submitted,

CHARLES G. CHICK, Chairman.

Hyde Park, Feb. 3, 1896.

HYDE PARK, Feb. 3, 1896.

At a meeting of the full Board it was voted to adopt the foregoing annual report as prepared and read by the Chairman as the report of the Board.

R. M. JOHNSON Secretary.

SUB-COMMITTEES' REPORTS.

HIGH SCHOOL.

The graduating exercises of the High School occurred on the 24th of June last, with a creditable program both in arrangement and quality of matter. The music was of a high order and was well received. Twenty-eight scholars were graduated from the 4-years' and 9 from the 2-year's courses. Of these 6 went to college, 2 to Normal School and 1 to Training School. Wherever examinations were required they were passed with credit, and the students are now doing well. The organization of the school this year is as follows : —

Senior class	-	-	-	-	-	-	45
Second "	-	-	-	-	-	-	36
Third "	-	-	-	-	-	-	60
Fourth "	-	-	-	-	-	-	82
							— —
Total	-	-	-	-	-	-	223

Changes in our teaching force during the year have been as follows : —The resignation of Mr. W. M. Cannon in June was followed in September by the appointment of Mr. E. Q. S. Osgood, a gentleman of exceptional culture, and well known as a citizen of Hyde Park. Lieut. Philip J. Flanders as military instructor was succeeded in September by Mr. A. W. Lowe, who continues his duties as teacher in the Business Course, with the addition of the military drill. Miss Alice G. Beede was employed at the beginning of the Fall term as a half-time teacher to relieve the pressure of work in the department of English in the entering class. This study has had especial attention in this school, as it has every where within the last few years, where the subjects

are treated with the thoroughness which the best instruction demands. A recent revision of a portion of the school program, dividing the large third class in Latin (46 scholars), now fills up Miss Beede's duties so that she has been made a full-time teacher from January 1st. She is doing good work so far, and seems amply qualified for the position.

Miss Marion K. Dean, our instructor of last year in physical culture, has this year been given charge of classes in elocution in addition to her work in physical culture. This subject seemed to the committee to be sadly neglected in both grammar and high schools, here and elsewhere, and to judge from the reading of candidates for teachers' positions who come here from Normal schools and take our examinations, the study is lacking in thoroughness there also. To read *well* is an elegant accomplishment, and it seems to be as rare as it is elegant. Much time now devoted to other things—and this is probably the reason why good reading is so neglected—could be more profitably spent in elocution in the judgment of your local committee. Miss Dean's work embraces other branches of the study, and we hope the improvement in this direction will be apparent in the daily recitations of the school as well as in the annual exhibitions, when further progress has rendered the instruction complete.

The school has now a fairly well equipped chemical laboratory, and the instruction is of a good character and up to the requirements for entrance to the best technical schools. Physical science however, although not lacking in importance as a study, and although as a study it has come up in the past few years from a somewhat neglected branch to be second to none in importance, still labors under difficulties with us, as has been in former years stated by this committee. The department of physics as now taught has been transferred to the modern laboratory plan of teaching largely by experiments; and since 1887 Harvard College has de-

veloped the practice of requiring for entrance, experiments in this branch. We have been able to slowly add some apparatus, but proper accommodations for its use is lacking. A separate room is needed with tables specially constructed to bring our facilities up to those of surrounding towns.

The work of the school in other departments has been fully up the past year to that of any year in its history in its general character. We believe, however, that the usefulness of the school and the thoroughness of its instruction would be increased by full and better accommodations.

RICHARD M. JOHNSON,
HELEN M. DEAN,
ELLA F. BOYD.

GREW SCHOOL.

The work has progressed in a very satisfactory manner during the past year. Miss Winslow, for many years faithfully performing the duties of master's assistant, was compelled by reason of ill health to resign her position in June. This was a misfortune, as Miss Winslow was a strong teacher. Miss Elizabeth Strongman was appointed to her place, and her work has thus far been satisfactory. She gives evidence of being a well equipped teacher. With this exception the teaching force remains as last year.

Acting under a vote of the Board we introduced the departmental system in the V., VI. and VII. grades in September, and have since watched its merits with much interest. We are satisfied that the test is being made under most favorable conditions, as the teachers of these grades are among the strongest employed by the town.

At the close of the Autumn term we were not fully satisfied that the trial had been long enough to warrant a final recommendation as to benefits of the system, and the trial will at least be continued through the Winter term.

In matters purely of instruction it seems to have an advantage over the former method, but in matters of individual training and character building its value is doubted, and as yet it is a question in the minds of teachers and committee whether its gains are not fully balanced by losses.

With a corps of teachers of less merit or with one teacher of less ability the system would undoubtedly fail.

Repairs upon the building were made during the summer. New gutters were placed upon the building, new floors laid in the upper and lower halls, a new floor placed in the XII. class room, new furniture in three primary rooms, a high board fence upon the northwest side of the lot and new stone vaults built for the outbuildings. These repairs were largely made from the special appropriation made for this building in March.

Like the other large buildings this one is getting old and will constantly call for substantial repairs.

The primary rooms are now crowded, and with the addition of new pupils that may be expected in the spring the committee will be called upon to provide room elsewhere.

Whether the new Hilton street building can be utilized is a question in view of the distance. Had that building been located near the High School the difficulties would have been fully met.

In conclusion we wish to bear testimony to the faithful work of the teachers and the kind co-operation of the patrons of this school during the year.

Respectfully submitted,

CHARLES G. CHICK,
ELLA F. BOYD.

FAIRMOUNT SCHOOL.

The usual standard of excellence has been maintained. The corps of teachers, as a whole, is eminently satisfactory. It

has been our policy to fill all vacancies, as far as practicable, with residents of our town, and the result has proven successful beyond our most sanguine expectations. Misses Le Bourveau, Farnsworth and Morrell, the most recent appointees, are rendering a service that graduates of Training and Normal Schools could not excel. We would not have it understood that we decry such institutions, though inclined to the theory based upon experience and observation of many years that our best teachers are "born not made." A well rounded education fortified with the most advanced methods is never a guarantee of success, for without tact, that absolute essential, the pathway is strewn with dismal failures.

The question of heating this building no longer perplexes us, for whether the temperature outside is at zero or 15 degrees below, all the rooms, at the opening of each session, have an average temperature of 70 degrees. The desks in some of the rooms are decidedly unfitted for the use of the pupils and should be replaced by those of more modern pattern, for while we strive to develop the mental capacity of the pupil we should guard well that the physical development does not suffer.

The repairs upon the building the past year have been only such as were actually necessary to maintain the plant and give security and comfort to the inmates.

J. F. LEWIS,
ELLA F. BOYD.

GREENWOOD SCHOOL.

The work of the Greenwood School during the past year has been accomplished under great disadvantages, owing to the crowded condition of the building. The teachers have been faithful and cheerful under difficulties, and have almost, without exception, put forth their best efforts on behalf of

their pupils, and the result, as a whole, has been satisfactory.

In the lower grades many changes have occurred. Each division of the Twelfth Class has had no less than three teachers since the opening of school in September. Our more wealthy neighbors are able to offer inducements that deprive us of our teachers, one by one, but we hope they are at last satisfied, and that we may be permitted to retain the teachers at present employed. Notwithstanding the numerous changes no disturbance has occurred in any of the rooms.

Miss Martha McLellan and Miss Gertrude Plummer are teaching the divisions of the Twelfth Class. Both are experienced teachers, and although they have been with us but a short time they have already demonstrated their ability to do the work required of them. The resignation of Miss Evelyn Howes of the Eleventh Class was deeply regretted by your committee. Miss Wyman, who succeeded Miss Howes, and Miss Murray, who succeeded Miss Batchelder, in the Ninth Grade, are doing good work.

At the close of the Spring term Miss Buker, the master's assistant, resigned her position. A general and well earned promotion followed, leaving a vacancy in the second division of the Ninth Grade. This vacancy has been filled by Miss Gertrude Tilden, whose work is giving general satisfaction. Of the remaining teachers it is unnecessary to speak. They have been with us for some time and their records speak for them.

This report would hardly be complete were no mention made of the resignation of our tried and trusted janitor, Mr. Albert Lord, who has served the school well and faithfully for many years, and by his good work has contributed to the comfort of both teachers and scholars. Mr. George McDonald, our present janitor, has held the position but a few weeks. His long experience in caring for a large, high pres-

sure boiler, and his excellent recommendations as to reliability are sufficient guarantee of his fitness for the place.

AUGUSTA L. HANCHETT,
JOSHUA. F. LEWIS.

DAMON SCHOOL.

No changes have taken place in the teaching force during the past year. In November Mr. R. Wheeler resigned his place as janitor, and Mr. A. W. Henderson was engaged to fill the position. Last year as the fifth and sixth classes were so small it was thought best to have them unite and take fifth class work, which was done, and most of them graduated as fifth class pupils. This left the school without a graduating class for this year. The master, Mr. A. W. Armstrong, is doing thorough, efficient work in his own room and is unifying the work throughout the building. The teachers are working faithfully, and good results are being secured.

May 17th was observed as "Bird day" in all the rooms, and many interesting things about the birds were said and sung.

Wednesday, at noon, Feb. 6th, 1895, the school house caught fire from the furnaces, and but for the prompt and efficient work of the firemen would have been totally destroyed. Temporary quarters were at once found, and Wednesday, one week later, the five lower classes resumed their work in the stores in the Stevens Block, and the other classes one day later in the Cycle Club rooms. The fire, while seriously damaging only two rooms and the hallways, occasioned much injury to all of the rooms from smoke and water. The weather was extremely cold, and the inside of the building was so covered with ice for several days that it was difficult to estimate the extent of the damages. As early as possible the adjusters performed their duties, and

we were at liberty to proceed with repairs. The town promptly voted to place the amount of \$4,290.21, received from the insurance companies, at the disposal of the School Committee for this purpose, and we were authorized to use this fund at our discretion. As soon as possible our furnace was put in condition, and the rooms were cleared of the ice and dried. When this had been thoroughly done five rooms were found in a condition to be safely used, and needed but comparatively little work by carpenters to make them very comfortable. It was thought wise to do this work immediately, and Mr. Warren W. Hilton, who had adjusted the loss for the town, and was familiar with the exact condition of the rooms, was employed to do this work, and instructed to proceed promptly, as the town was paying rents for the rooms used by the schools. So well did he follow these instructions that on March 11th, in less than five weeks after the fire, the school re-assembled at the Damon building in five very comfortable rooms. Of course the ceilings were badly discolored, but all had been thoroughly cleaned. The old furnaces had been repaired by Mr. Lewis, and connections made so that during the spring the rooms were kept very well warmed. The matter of a permanent heating apparatus was considered by us before any considerable work was done upon the furnaces, and several well known concerns were asked to, and did, give us figures upon cost and time required to install, but for reasons before stated it was thought best to defer until summer, and until we could ascertain how much our repairs would cost, and thus know how much of the fund at our disposal would be left for a heating plant. Upon the closing of schools in June we at once arranged with Mr. Hilton to superintend all the repairs and furnish the carpenter work by the day, a course that seemed to be best from the condition of the building and the uncertainty of the exact amount of work which would be found neces-

sary. Bids were received for the painting and mason work upon specifications prepared by Mr. Hilton, and by the first of August, after careful estimate of our expenditures and obligations, we had the satisfaction of finding a balance on hand sufficient to warrant us in contracting with the Exeter Machine Works for a steam heating plant for \$1,592. This concern has supplied the town with their plants and its work has always been satisfactory, and as its estimate was the lowest obtained we contracted with it at once that the work might be done by Sept. 1st.

The building has been thoroughly repaired, painted inside and out, with new furniture in three rooms, and furnished with a first-class steam heating plant from the fund received from the insurance companies. The building is nearly as good as new, and will need little repair except possibly upon the roof for many years to come. We annex to this report our items of expenditures.

BUTLER SCHOOL.

This school continues under the charge of Miss Gidney, who is doing good, faithful work. At the beginning of the Fall term it was found impossible to accommodate the many children in this district, but through the kindness of the local committee and master of the Greenwood School, the extra number was transferred to that already crowded school.

During the summer vacation the room was cleaned and the walls were whitened, and a new closet was built for the books and other appliances needed in school work. A flag-pole has been added to the building in accordance with the laws of the State.

The yard has been filled in with gravel to a nearer level with the present grade of the street, but this should be carried still further, although it is impossible now, unless the building is raised. This should be done, and the surround-

ing trees should be trimmed in order to let in the pure sunshine, and so keep the school in a dry, healthful condition. The attendance has been large all winter, and it does seem that before long this section of the town will also need larger accommodations.

ELLA F. BOYD.

EVENING SCHOOLS.

The Committee on Evening Schools submit the following reports and recommend that the Board adopt the suggestions therein stated.

JOSHUA F. LEWIS,
AUGUSTA L. HANCHETT.

To the Committee on Evening Schools:

I herewith submit the following report of the Evening School:

The school opened on the evening of October 28, 1895. The first two evenings were for registration. The regular work commenced on the evening of October 30th, since which time it has continued with good success. In the English department 27 students were registered; the average attendance is 16; the average age is 20 years and 4 months. Six nationalities have been represented.

In addition to the English studies regularly taught instruction has been given in French and Latin. Bookkeeping has been taught to a small number of students. If this study is to be taught as a special study, I would suggest that a different text book be used, as the text book now in use is not complete enough to meet the requirements of even the average business house.

Stenography is taught as a special study, and was introduced into the Evening School in November, 1894, and carried on with good results. This year a larger number

of students have received instruction on this subject. The number registered is 20; average attendance 11; average age 19. The students have made such rapid progress that a number of them are at the present time receiving dictation practice on business letters, the same being dictated at the rate of 75 words per minute. I would suggest that a certificate be issued to those students who, at the close of the school, are able to write 70 words per minute on new matter. If this were done it would encourage the students to do their best work and would also fix a value to the instruction.

The students, in all departments, who have been regular in attendance have been faithful in their work and the results more than justify the outlay.

Respectfully submitted,

A. W. LOWE, Principal.

To the Committee on Evening Schools of the Town of Hyde Park.

I submit the following report:—

From the time of writing the last report to April 1 the School manifested its usual marked improvement with the average number of pupils to the end of the term being good.

On Oct. 28, the thirteenth term opened under its usual pleasing auspices, at which time fifty-two young and middle-aged men were enrolled, and this number increased until seventy-two names were on the roll, divided into three classes, as has been in former years, about forty of whom wished to enter the Elementary Class. To accommodate this large number (as there were not sufficient rooms or boards) your Committee advised the adoption of another evening, which was so adopted, until the New Year vacation, at which time this class was divided into two classes, namely, Architectural

and Mechanical; these two classes are about equally divided and are each doing some excellent work, copies of which will be shown at the end of the term. These two classes meet on Mondays and Wednesdays. The advanced classes, in the same class of work, meet on Wednesdays and Thursdays. These classes, while not so large, are doing some work which is a credit to them, and which we are in hopes to show at the end of the present term, about April 1.

The Brainard Milling Machine Company have loaned us some patterns to be used for models, for which mention should be made and thanks returned.

Hoping this will convey some idea of the work done in the Evening Drawing School, I remain,

E. C. TOURTELLOTTE, Instructor.

INDUSTRIAL SCHOOL.

The Sub-Committee on Industrial Schools submit the following report of Mr. Webb as their report.

R. M. JOHNSON,
HELEN M. DEAN.

To the Committee on Industrial School of the Town of Hyde Park.

The School of Carpentry for boys opened July 9, 1895, and closed September 3. As in the previous year, a class was formed in the morning of pupils who had attended the school the year before, and a class in the afternoon for beginners. I am inclined to believe that the privilege of taking home such small articles as some of them succeeded in making, increased their enthusiasm, and consequently a better attendance was obtained. Forty-eight boys applied and took lessons during the term, and the average daily attendance was twenty-six.

Respectfully submitted.

GEORGE E. WEBB.
